Treatment Guide: this is only a guide, I will be excited to discuss your hair on WhatsApp to give a direct recommendation 😊

Deep Conditioning and aloe Vera treatment are moisturising and length retention treatments.

For split ends and excessive knots and breakage, the solution is a trim and most time deep conditioning is recommended before the trim and some times light protein treatment

For coloured or bleached hair and sudden dryness and thinning out of hair deep conditioning and major protein treatment.

Scalp itching and irritation go for scalp detox, Rhassoul Clay treatment. Dandruff (thick flake on the scalp), dandruff cleansing and/or Rhassoul Clay Treatment.

All Ayurvedic Treatments are hair growth stimulation treatments, Blue Spa Sessions,

and Ayurvedic Pre-poo and Washing. However, henna treatment is also recommended to tone down the colour of your dyed hair.

Excess dirt in locs even after shampooing, locs detox.

Green Tea Hair Rinse is recommended for stamina, and shine and to reduce excess shedding. Done after any final wash or treatment.

Monthly overall hair maintenance treatment Blue spa session, for coloured hair Blue Spa Session Pro. Overall scalp treatment Blue Scalp Session. Hair Dryness after taking out extensions, Blue Spa Session. Low-budget dryness treatment, hot oil Pre-poo and Washing.

General dryness from weather and other factors, hydrating, moisturizing, steaming and detangling.

However, this guide isn't the final, as the name implies it's only a guide. So if you want a wider range of treatment at once during your appointment it's possible.

You can also book a consultation session to know which of these treatment(s) your hair and scalp needs at the moment.

Kindly Note:

- Additional usage of extra personal products that involve extra time spent have an additional charges of #500 only
- The prices above are constant if client brings in personal products except stated otherwise 😊
